Journal of Epidemiology and Community Health, 1988, **42**, 407–410

Index to volume 42, 1988

Abortion, induced, child-bearing after, reassessment of risk, 294
Accident and Emergency departments, England 1974 to 1985, variation in demand, 274
Alcohol consumption association with plasma HDL-cholesterol, 220
—— and food consumption, social and regional differences, and their measurement in national birth cohort, 341
—— role in cancers of upper alimentary tract, use of models in risk assessment, 187
—— and smoking, interaction, and laryngeal cancer, France, 350
ALEXANDER, R. E., ROBERTS, M. M., HUGGINS, A. and MUIR, B. B.: Use of risk factors to allocate schedules for breast cancer screening, 193
Anglesey, appendicitis epidemic following introduction of piped water, 144
Appendicitis, acute, changes in incidence, Glasgow Asian and white children, 1971–1985, 290
—— epidemic, and piped water, Anglesey, 144
ARIE, T. H. D., *see* DALLOSSO, H. M. *et al.*
ARMSTRONG, E., *see* KNOX, E. G. *et al.*
Asthma deaths, England and Wales, 1931–1985, evidence for true increase in asthma mortality, 316
—— prevalence among teenagers at school, Tahiti, 149
Atherosclerotic peripheral arterial disease, variability of ankle and brachial systolic pressures, 128

Contents

No 1 March 1988

Maternal drug histories and congenital malformations: limb reduction defects and oral clefts LISA HILL, M MURPHY, M McDOWALL, AND A H PAUL *page* 1

The value of England and Wales congenital malformation notification scheme data for epidemiology: male genital tract malformations A J SWERDLOW AND D MELZER *page* 8

Are malignant melanoma time trends explained by changes in histopathological criteria for classifying pigmented skin lesions? ROBIN PHILIPP, ANDREW HASTINGS, JAMES BRIGGS, AND JENNIFER SIZER *page* 14

Partial sight and blindness in children of the 1970 birth cohort at 10 years of age S L STEWART-BROWN AND M N HASLUM *page* 17

Body weight and the prevalence of chronic diseases EVA NEGRI, ROMANO PAGANO, ADRIANO DECARLI, AND CARLO LA VECCHIA *page* 24

Lactation and cancer risk: is there a relation specific to breast cancer? GUNNAR KVÅLE AND IVAR HEUCH *page* 30

Cigarette smoking and male lung cancer in an area of very high incidence: I Report of a case-control study in the West of Scotland CHARLES R GILLIS, DAVID J HOLE, AND PETER BOYLE *page* 38

Cigarette smoking and male lung cancer in an area of very high incidence: II Report of a general population cohort study in the West of Scotland CHARLES R GILLIS, DAVID J HOLE, AND VICTOR M HAWTHORNE *page* 44

Twenty years' screening for cancer of the uterine cervix in Great Britain, 1964–84: further evidence for its ineffectiveness M F G MURPHY, M J CAMPBELL, AND P O GOLDBLATT *page* 49

Repeatability of a questionnaire to assess respiratory symptoms in smokers CELIA H WITHEY, CHARLES E PRICE, ANTHONY V SWAN, ANNA O PAPACOSTA, AND MICHAEL J HENSLEY *page* 54

High density lipoprotein cholesterol and longevity ANCEL KEYS *page* 60

A comparison of methods for increasing compliance within a general practitioner based screening project for colorectal cancer and the effect on practitioner workload G PYE, M CHRISTIE, J O CHAMBERLAIN, S M MOSS, AND J D HARDCASTLE *page* 66

Urinary iodine excretion correlates with milk iodine content in seven British towns M NELSON, D I W PHILLIPS, J A MORRIS, AND T J WOOD *page* 72

Absence of psychosocial bias in the under-reporting of unintentional childhood injuries JOHN D LANGLEY, PHIL A SILVA, AND SHEILA M WILLIAMS *page* 76

A case-control study of the effect of environmental sanitation on diarrhoea morbidity in Malawi BEVERLY YOUNG AND JOHN BRISCOE *page* 83

Changing mortality patterns in Nauruans: an example of epidemiological transition M SCHOONEVELDT, T SONGER, P ZIMMET, AND K THOMA *page* 89

Book reviews *page* 96

Letter to the Editor *page* 99

Society for Social Medicine *page* 102

No 2 June 1988

Passive smoking and respiratory conditions in primary school children SHEENA M SOMERVILLE, ROBERTO J RONA, AND SUSAN CHINN *page* 105

District programme to reduce smoking: can sustained intervention by general practitioners affect prevalence? M A H RUSSELL, J A STAPLETON, P HAJEK, P H JACKSON, AND M BELCHER *page* 111

Diagnosis of past history of myocardial infarction in epidemiological studies: an alternative based on the Caerphilly and Speedwell surveys J W G YARNELL, P M SWEETNAM, I A BAKER, AND D BAINTON *page* 116

Levels of customary physical activity among the old and the very old living at home H M DALLOSSO, K MORGAN, E J BASSEY, S B J EBRAHIM, P H FENTEM, AND T H D ARIE *page* 121

Variability of ankle and brachial systolic pressures in the measurement of atherosclerotic peripheral arterial disease F G R FOWKES, E HOUSLEY, C C A MACINTYRE, R J PRESCOTT, AND C V RUCKLEY *page* 128

Usefulness of mortality data in determining the geography and time trends of dementia C N MARTYN AND E C PIPPARD *page* 134

A possible artefactual component in specific cause mortality gradients: social class variations in the clinical accuracy of death certificates M L SAMPHIER, C ROBERTSON, AND M J BLOOR *page* 138

Appendicitis epidemic following introduction of piped water to Anglesey D J P BARKER, JULIE A MORRIS, SHIRLEY J SIMMONDS, AND R H P OLIVER *page* 144

Prevalence of asthma among teenagers attending school in Tahiti R LIARD, R CHANSIN, F NEUKIRCH, M LEVALLOIS, AND Ph LEPROUX *page* 149

Negative health selection into physically light occupations PIROSKA ÖSTLIN *page* 152

Factors affecting the outcome of maternity care I. Relationship between staffing and perinatal deaths at the hospital of birth JOHN STILWELL, ALA SZCZEPURA, AND MIRANDA MUGFORD *page* 157

Factors affecting the outcome of maternity care II. Neonatal outcomes and resources beyond the hospital of birth MIRANDA MUGFORD, ALA SZCZEPURA, ALAN LODWICK, AND JOHN STILWELL *page* 170

A controlled evaluation of a health education programme for pregnant women in rural areas D ZMIROU, M CHARREL, AND C VEYRE *page* 177

Medical morbidity of the homeless N J SHANKS *page* 183

Role of alcohol in cancers of the upper alimentary tract: use of models in risk assessment PERIN N NOTANI *page* 187

Use of risk factors to allocate schedules for breast cancer screening FREDA E ALEXANDER, M MAUREEN ROBERTS, ANNE HUGGINS, AND BERENICE B MUIR *page* 193

Improvements in general health among the elderly: a factor in the rising incidence of hip fractures? VILHJALMUR FINSEN *page* 200

Book reviews *page* 204

Letters to the Editor *page* 207

No 3 September 1988

Advantages of a standard method for research on reproductive effects of occupation MICHAEL JOFFE *page* 209

Port Pirie Cohort Study: Childhood blood lead and neuropsychological development at age two years N R WIGG, G V VIMPANI, A J McMICHAEL, E F ROBERTSON, P A BAGHURST, AND R J ROBERTS *page* 213

Associations of alcohol consumption with plasma high density lipoprotein cholesterol and its major subfractions: The Caerphilly and Speedwell Collaborative Heart Disease Studies N E MILLER, C H BOLTON, T M HAYES, D BAINTON, J W G YARNELL, I A BAKER, AND P M SWEETNAM *page* 220

Type A behaviour and prevalent hear disease in the Caerphilly study: Increase in risk or symptom reporting? JOHN E GALLACHER, JOHN W YARNELL, AND BARBARA K BUTLAND *page* 226

The Nottingham Health Profile as a measure of quality of life following combined heart and lung transplantation B J O'BRIEN, N R BANNER, S GIBSON, AND M H YACOUB *page* 232

The Inter-Regional Epidemiological Study of Childhood Cancer (IRESCC): past medical history in children with cancer A L HARTLEY, J M BIRCH, P A McKINNEY, V BLAIR, M D TEARE, J CARRETTE, J R MANN, C A STILLER, G J DRAPER, H E JOHNSTON, R A CARTWRIGHT, AND J A H WATERHOUSE *page* 235

Use of nasal preparations and the incidence of sinonasal cancer CLIFTON H STRADER, THOMAS L VAUGHAN, AND ANDY STERGACHIS *page* 243

High and low risk groups for cancer of colon and rectum in Denmark: multiplicative Poisson models applied to register linkage data ANDERS MELLEMGAARD, GERDA ENGHOLM, AND ELSEBETH LYNGE *page* 249

Gastro-intestinal atresias in Finland in 1970–79, indicating time-place clustering PENTTI KYYRÖNEN AND KARI HEMMINKI *page* 257

Frequency of births with potentially avoidable serious chromosomal anomalies in EEC countries, 1979–1982 LEO P TEN KATE, HELEN DOLK, MARTINA C CORNEL, PHILIPPE DE WALS, GERARD J TE MEERMAN, MICHEL F LECHAT, AND JOSEPHINE A C WEATHERALL *page* 266

Screening for congenital neural tube defects in a high-risk area: an epidemiological perspective DAVID H STONE, MARY J SMALLS, KATHRYN ROSENBERG, AND JOHN WORMERSLEY *page* 271

Variation in demand for Accident and Emergency departments in England from 1974 to 1985 P C MILNER, J P NICHOLL, AND B T WILLIAMS *page* 274

Epidemiological aspects of suicide among the young in selected European countries GUIDO F G MOENS, WIM HAENEN, AND HERMAN VAN DE VOORDE *page* 279

A preliminary study of excess mortality using a psychiatric case register CHRISTINE HASSALL, P PRIOR, AND K W CROSS *page* 286

Changes in the incidence of acute appendicitis in Glasgow Asian and white children between 1971 and 1985 L M MATHESON, J B HENDERSON, D HOLE, AND M G DUNNIGAN *page* 290

Child-bearing after induced abortion: reassessment of risk DANIEL S SEIDMAN, PNINA EVER-HADANI, PAUL E SLATER, SUSAN HARLAP, DAVID K STEVENSON, AND RENA GALE *page* 294

Height and social class in middle-aged British men MARY WALKER, A G SHAPER, AND GOYA WANNAMETHEE *page* 299

The Hawthorne effect in the measurement of adolescent smoking M MURRAY, A V SWAN, S KIRYLUK, AND G C CLARKE *page* 304

Book reviews *page* 307

Letters to the Editor *page* 310

No 4 December 1988

Uses and abuses of multivariate methods in epidemiology STEPHEN J W EVANS *page* 311

Asthma deaths in England and Wales 1931–85; evidence for a true increase in asthma mortality PETER BURNEY *page* 316

Field evaluation of the Copal UA—231 automatic sphygmomanometer STEPHEN ROGERS, GEORGE DAVEY SMITH, AND WENDY DOYLE *page* 321

Regional differences in mortality from conditions amenable to medical intervention in The Netherlands: a comparison of four time periods JOHAN P MACKENBACH, ANTON E KUNST, CASPAR W N LOOMAN, J DIK F HABBEMA, AND PAUL J VAN DER MAAS *page* 325

Deriving relative risks from aggregate data. 1. Theory THOR NORSTRÖM *page* 333

Deriving relative risks from aggregate data. 2. An application to the relationship between unemployment and suicide THOR NORSTRÖM *page* 336

Social and regional differences in food and alcohol consumption and their measurement in a national birth cohort F E M BRADDON, M E J WADSWORTH, J M C DAVIES, AND H A CRIPPS *page* 341

A study of the interaction of alcohol drinking and tobacco smoking among French cases of laryngeal cancer PASCAL GUÉNEL, JEAN-FRANÇOIS CHASTANG, DANIÈLE LUCE, ANNETTE LECLERC, AND JACQUES BRUGÈRE *page* 350

The joint effects of two factors in the aetiology of oesophageal cancer in Japan KEI NAKACHI, KAZUE IMAI, YOSHIHARU HOSHIYAMA, AND TAKAFUMI SASABA *page* 355

Proximal femoral fractures: some determinants of outcome IAN F GREATOREX AND ALAN C C GIBBS *page* 365

Changes in tuberculosis notification rates in the white ethnic group in England and Wales between 1953 and 1983 V H SPRINGETT, JANET H DARBYSHIRE, A J NUNN, AND I SUTHERLAND *page* 370

Psychosomatic symptoms, social support and self worth among the elderly in Hong Kong SUZANNE C HO, STUART P B DONNAN, AND APRILLE SHAM *page* 377

Relationship of lung function loss to level of initial function: correcting for measurement error using the reliability coefficient LES IRWIG, HENNIE GROENEVELD, AND MARGARET BECKLAKE *page* 383

The classification of ethnic status using name information ANDREW J COLDMAN, TERRY BRAUN, AND RICHARD P GALLAGHER *page* 390

Participation in a follow up study of health among unemployed and employed people after a company closedown: drop outs and selection bias LARS IVERSEN AND SVEND SABROE *page* 396

Book reviews *page* 402
